

## Dressing Conveyor

### Product Description

The conveyor body is constructed from stainless steel and guide tracks are constructed from U.H.M.P.E. Conveyor chain and attachments for fore legs are also all stainless steel.

Stainless steel droppers to support the conveyor are attached to structural support steel.

The conveyor can have either electric drive or hydraulic drive and is controlled by a V.S.D. located in the conveyor control board.

The conveyor is timed together with bleed conveyor, skid and gambrel conveyor, peltomatic and evisceration table.

### Giura Group – Meat Technology

We are specialists in the design, manufacture, installation and commissioning of small stock slaughter lines for the domestic and international market.

Giura Group is not limited to small stock – we also design, manufacture, install and commission many types of slaughter equipment for both Beef and Pork.

We keep in stock a large amount of spare parts for various machinery and provide maintenance and service support during both normal and after hours.
